Kisha Onia

Frontend Developer | Software Engineer

Las Vegas, Nevada | (702) 350-2934 | workwithkisha@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

Frontend: React.js, React Native, Redux, JavaScript, HTML, CSS   **Backend:** Node.js, Express, SQL, PostgreSQL, Python
Expertise: Agile Project Management, Debugging, Deployment, API Integration, Collaboration, Continual Learning

PROJECTS

Wedding Website, *Full Stack Developer* - JavaScript | React |Node.js | SQLAlchemy | SQLite3 | AWS   [Live](#) | [GitHub Repo](#)
- Implemented a platform for seamless wedding information on the frontend, including guest lists, comments, song requests, using Javascript and React and deployed using PostgreSQL.
- Enabled user registration, login, and profile updates on the backend using SQL to enhance user engagement and interaction on the platform.
- Integrated AWS for efficient and scalable photo uploads, enhancing the user experience and content richness.

SnowLFB, an AirBnb Clone, *Full Stack Developer* - JavaScript | React | Node.js | SQLAlchemy | SQLite3   [Live](#) | [GitHub Repo](#)
- Utilized Node.js and SQL on the backend to handle server-side operations, manage databases and provide secure user authentication.
- Developed a seamless platform, incorporating features like property management, bookings, reviews, messaging, and photo uploads, ensuring a smooth user experience using Javascript and React.
- Instituted a reliable and robust database system using PostgreSQL, facilitating seamless operational continuity and data security.

Spork, a Tumblr Clone, *Full Stack Developer* - Python | Flask | SQLAlchemy | PostgreSQL | React   [Live](#) | [GitHub Repo](#)
- Constructed a feature-rich frontend using React, inspired by Tumblr using Python and Flask to manage databases ensure smooth interactions for blog management, post creation and comments.
- Implemented features such as user authentication on the backend using SQL allowing users to interact seamlessly while enjoying a strong user experience.
- Executed a secure, efficient and scalable deployment strategy using PostgreSQL, thereby bolstering the application's overall robustness and ensuring operational stability.

EXPERIENCE

Pool Cocktail Server | *MGM Resorts International*   February 2022 - June 2022
- Managed multiple tasks efficiently ensuring the timely delivery of drinks and enhancing guest satisfaction with exceptional service.
- Conducted accurate and financial transactions and maintained precise record keeping, contributing to smooth operations and financial transparency.
- Adapted seamlessly to changing circumstances, remaining composed in high-pressure situations, such as weather change, and resolving intoxicated customer issues effectively.

Brand Ambassador | *Get Beyond*   November 2021 - June 2022
- Demonstrated a strong commitment to continuous learning and market research staying updated on industry trends, competitors and to drive growth.
- Improved strategies to meet diverse industry needs, resulting in consistent achievement and surpassing of targets.
- Utilized CRM software for leading tracking, enhancing team collaboration and ultimately for goal attainment.

EDUCATION

App Academy, *Full Stack Development*   August 2022- June 2023
Gained professional skills in programming languages Python and JavaScript to develop high-quality, industry-standard applications.

Enderun College, *Bachelor in Business Marketing*   January 2019 - January 2022
Studying Business Marketing provided me with knowledge in marketing principles, market research, consumer behavior analysis, and

digital marketing techniques, empowering effective campaigns and data-driven business decisions.
